

COSEC

For Education Industry

Today, education industry facing many challenges such as taking manual attendance, generating reports, accurate identification of students and their security. Teachers are also a kind of professionals; they take leaves due to many reasons. Principal has to arrange substitute teachers to take classes on such days. This activity needs prior information like which teachers will be on leave and available during those days.

Moreover, parents are always anxious to know students' whereabouts during school hours. It is tough task to provide student's attendance and other information right from his step into the school till the day ends at home with their parents.

Matrix COSEC is an ideal solution for schools, colleges and universities etc. It is proven fingerprint biometric and RF card based technology provides comprehensive Time-Attendance and Access Control solution. With help of it, student and staff attendance becomes very easy to capture and maintain. It offers powerful and easy-to-use web application software controls 1 to 10,000 class rooms and tracking attendance of 10 to 1million students simultaneously.

Matrix COSEC provides tremendous variety of reports such as daily, weekly and monthly attendance, yearly performance, attendance summary etc. Reports about absent or late coming students can be generated and even a notification can be sent to their parents via SMS and E-mail. It offers web based portal to monitor pupil's attendance from home to their parents. It also facilitates principal to arrange substitute teacher in place of absent in advance with help of shift-schedule and leave management.
