Time-Attendance and Access Control

Company Profile

IndiaNivesh is one of the leading financial services conglomerate in India. IndiaNivesh Group is into various aspects of investment banking and consulting business. It plans to emerge as a dynamic, customer-centric, and progressive financial group in the country with PAN India presence. Having its head office in Mumbai, IndiaNivesh is growing with 8 regional offices and 29 branch offices across India.

Business Challenge

For any organization, staff regularity is the most vital parameter to increase its productivity. IndiaNivesh was using biometric time-attendance system at their head office in Mumbai. Manually marked attendance summary from regional and branch offices was sent to head office. At times corporate HR noticed that attendance data was forged but still company could do nothing about it. The process of data collection and salary calculation was getting complicated with growing business. Centralized database management for time-attendance and access control using biometric and card based system was the major requirement of the company when they approached Matrix. They wanted a solution with local service support to all branch/regional offices across India. They also wanted an option of real-time monitoring of events from its head office. Secondary requirement of the company was that the system should integrate with its existing payroll software and provide data in form of reports and charts.

Matrix Offered Solution

Matrix comprehensive solution offered to IndiaNivesh was to connect all its regional and branch offices to their head office in Mumbai. The central server using the COSEC LE PLATFORM is located at its head office which is used to collect attendance data from all its offices. All the offices are connected by VPN. Time-attendance and access control reports and charts of all the offices is being viewed from its head office directly. Salary calculation is authentic as the collected data is directly exported to its existing payroll software. To get reliable and authentic Time-attendance from all its offices, fingerprint and card based COSEC DOOR FOP is used. Card based COSEC DOOR CAS is installed at few regional/branch offices to provide enhanced access control. Attendance of each employee is marked accurately and sent from all locations to the head office automatically. Matrix also offers extensive service support to all its regional/ branch offices across India.

Application Diagram
